NON-LIFE INSURANCE MARKET REPORTS

(PROPERTY & CASUALTY)

A uniquely detailed and comprehensive insight into the global non-life (P&C) insurance industry

Axco's Non-Life Insurance Market Reports combine the expertise of its insurance specialists reporting from over 170 territories with that of its team of London-based statisticians and research analysts to produce a set of online reports. The reports are set out market by market, and provide an easy to navigate, comprehensive overview of individual insurance markets around the world.

In each territory, experienced Axco consultants visit local supervisors, insurance associations, insurers, reinsurers and brokers to gather vital information and provide in-depth analysis of the local market. Axco monitors market developments and also provides regular updates on changes in legislation and regulation, including detail on compulsory insurances, non-admitted positions, and taxes and charges. In parallel, a team of statisticians supplements the written detail of the Insurance Market Reports with the most up-to-date figures from supervisory bodies and insurance associations across the globe.

Key Benefits

1. Give quick and easy access to up-to-date market data and intelligence
2. Supply crucial compliance information on over 170 insurance markets
3. Axco users can create customised reports to facilitate client presentations and business tendering

"Axco's policy of sending dedicated consultants to each individual market delivers a level of industry insight which is inaccessible through desk-top research and has established Axco's reputation as the definitive source for the latest insurance industry information."

NON-LIFE INSURANCE MARKET REPORTS

(PROPERTY & CASUALTY)

Time-saving efficiencies

The depth and breadth of Axco's Insurance Market Reports provide subscribers with a single, reliable and authoritative source of market intelligence which facilitates workflow and saves time. Reports eliminate the need to search through multiple and inconsistent sources of information, and instead follow a clear and consistent format, making it quick and easy to find information, make comparisons and spot trends across multiple markets or market sectors.

Users of Axco's Non-Life Reports can be assured of their access to the most relevant, current and accurate market data available. The reports are verified by dedicated checkers and supplemented with data from our in-house Statistics Department, who have long-standing relationships with local supervisors and are continually sourcing the most recently-released statistics from all over the world.

In addition to individual Country Reports, Axco also produces Special non-life Reports on the following:

- Bermuda
- CIMA Legislation (francophone Africa)
- European Union (EU) Legislation
- International Agreements
- The London Market

Crucial compliance information

Axco's Insurance Market Reports help subscribers to identify the compliance needs of the market[s] in which they are operating by providing essential, regularly updated compliance and tax information. Axco sets out clearly the current practice in each market and the fines and penalties which might apply for contraventions of local legislation.

For those considering a move to a particular market, Axco's range of information on company registration and operating requirements, including types of licence, capital requirements, limits on foreign ownership and solvency margins, can give readers a crucial insight into local practice and conditions and assist in decision making.

Business development: risk assessment and profitability

Axco Insurance Market Reports assist in the assessment of risk by providing information on such topics as:

- ratings and deductibles
- loss experience and trends in court awards
- natural hazards
- building standards
- individual lines of business and scope of cover

The information and data supplied by Axco can offer subscribers valuable insights on emerging markets and can be used to enhance revenue-boosting projects and commercial enterprises, to facilitate client presentations and construct proposals when bidding for business.

Axco's Non-Life Insurance Market Reports facilitate assessment of the profitability of markets and aid in the development of marketing strategies by providing information on:

- emerging political, economic and demographic factors
- geography, topography and natural hazards
- compulsory classes
- current and projected legislation
- regulatory considerations
- non-admitted positions
- taxes, tariffs and charges
- details of major market losses
- key players, market size and structure
- distribution channels and how insurance is sold
- policy coverage and conditions
- five years of written premium and loss ratios split by line of business
- two years of company premium and market share data
- contact details of local insurance associations and regulators, key local insurers, reinsurers and intermediaries.
